

Meldrum School
2017/18 Suggested Snow Day Activities
P6B

Here are some suggested activities to do whilst you are at home during any snow days this session. You do not have to complete all of the activities each day. Can you think of any extra activities?

Suggested Activities

Maths:

Please keep working on improving speed and accuracy with multiplication tables. Try designing your own games to help with this, such as Snap, Bingo, Loop Cards, Beat the Clock.

Literacy:

Continue to work on your Home Learning presentations for next week. Remember to use the success criteria in your jotter.

Write a poem to describe the scene outside your window. Using the writer's skills we have been looking at in school (alliteration, similes, metaphors, varied sentence length) describe what you can see, hear, smell and touch.

Enjoy reading a book by your favourite author! Write a book review to encourage someone else to read it – remember to include a blurb, age level and star rating.

Art:

Use some of the different art media we have been exploring in school to create a winter picture – or try something new!

French:

Design a Christmas/New Year/birthday card using French greetings.

Make up your own "colour by numbers" picture for a friend to try in school.

How many French colour words can you use?
