

**P6A Termly Update
Session 2024/25
Term 3**

Class News

Happy New Year team P6A! I hope you all had a great holiday and are ready for a new year of learning. This term Mrs Robertson will continue to teach some of our PE and we can look forward to exploring Eco activities with Mrs Holland. We are enjoying discussing our new class novel (Kensuke's Kingdom by Michael Morpurgo) and are intrigued to know what will happen next. Scots language and culture (both traditional and contemporary) will form the context for much of our learning this term. As always, don't hesitate to get in touch should you have any queries. Mrs Davidson

Weekly Timetable

Monday	PE with Mrs Davidson
Tuesday	PE with Mrs Robertson
Wednesday	
Thursday	Eco Activities with Mrs Cooper Library OTTER Club/Assembly
Friday	Technologies with Mrs Cooper Pupil Voice time

This Term's Learning

In literacy we will be exploring the Scots language and continuing to use the Pie Corbett Talk For Writing scheme with our imaginative writing. We will end the term looking at functional writing.

In maths we will continue our learning about multiplication & division and the links with factors. We will be learning about measurement and time. We will also be learning about fractions, decimals and percentages.

We are a Rights Respecting School and this term we will be learning more around events and dates including, Holocaust Memorial Day 27th January, LGBTQ+ History month in February, Children's Mental Health Week, International Women's Day, World Water Day and many more.

We will continue our RSHP (Relationships, Sexual Health and Parenthood) For more information please visit RSHP.Scot. The website has lots of useful information for parents and carers to support children in their learning at home. In P6 we follow the Second Level topics, click on the Levels link on the website for more information.

Well done to those who remembered their P.E kit last term. Please be sure to bring a change of shoes for the hall (especially when it's snowy outside!) and warm kit for outdoor sessions.

Our topic this term will be looking at aspects of science; solids, liquids, gases along with how science and technology feature in the news. If you have any knowledge or skills that relate to our topic work or perhaps you work in an industry that links then we would love for you to come and share your knowledge and experience with us. Please email the school as we'd love to hear from you.
